for issuing a site development
conditions decision

39 days - The average time
for issuing a building permit

INVESTMENT POTENTIAL OF ŁÓDŹ

THE STRONGEST SECTORS OF THE CITY ECONOMY

65 000 SPECIALISTS

113 SSC/COE/GBS/BPO CENTRES

> 200 IT COMPANIES

**BUSINESS
SERVICES**

IT

MANUFACTURING

LIFE SCIENCE

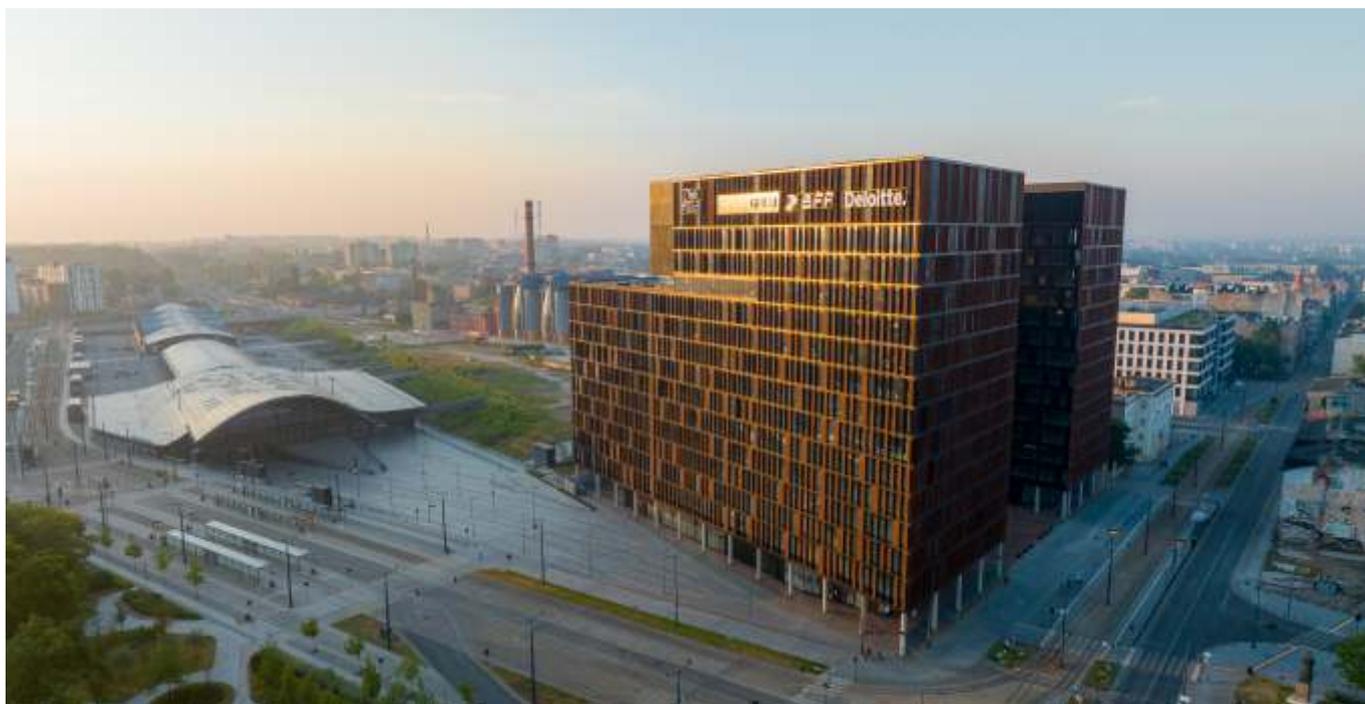

**DISTRIBUTION/
LOGISTICS**

In recent years, Łódź has been experiencing dynamic development in all major areas of modern technologies. It has become home to **113 BPO/SSC companies** and over **200 IT firms**, employing a total of **65 000 specialists** with plans for further growth.

The city's comprehensive and well-thought-out development has been recognized by numerous investors who have decided to embark on entirely new projects or expand their existing operations.

Among the most significant and valuable projects in terms of innovation, size, and quality of jobs are: Wella Company (Center of Excellence, Germany), Vention (IT, USA), InfoPulse (IT, Ukraine), EY (Center for Excellence), Alorica (BPO, USA), Daikin (Japan), First Derivative (Ireland), and DataArt (USA).

PORT POLSKA

CENTRAL AND EASTERN EUROPE HUB: STRATEGIC TRANSPORT CENTER

- A modern hub in Central and Eastern Europe
- A modular terminal dynamically adapting to demand
- Phased investment: flexible development of Airside and Landside zones

OPERATIONAL EXCELLENCE

- 24/7 operations
- Two parallel runways: optimal capacity for growing traffic
- Growth potential for LOT Polish Airlines
- Expansion potential for air cargo transportation

MULTIMODALITY

- Railway station integrated with the airport
- Optimal location: airport and transport infrastructure (road and rail) combined in one hub

AIRPORT SURROUNDINGS

- Modern Airport City
- Development of cargo and TSL (transport, shipping, and logistics) centers
- The airport and its surroundings as a catalyst for cooperation with the local community
Growth of trade and industry in the region

ENVIRONMENT

- The location of the airport has been selected to minimize its impact on local ecosystems and biodiversity
- Airport construction aligned with sustainable development principles
- Net-Zero Ready airport on the day of opening

PORT POLSKA

PORT POLSKA AIRPORT IN NUMBERS – CAPACITY

AIRPORT OPENING DAY

34 million passengers annually

2 independent runways

310 000 air operations annually

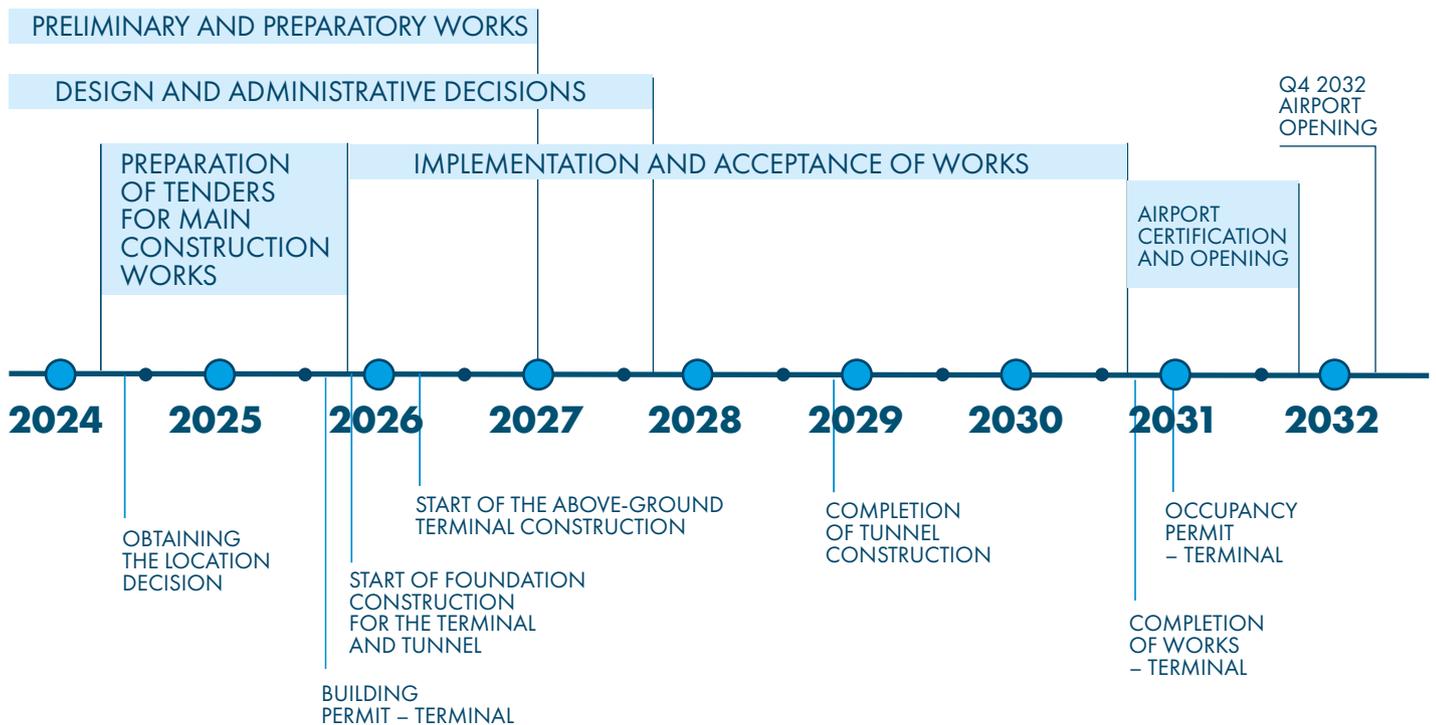

GROWTH POTENTIAL

60 million passengers annually

3 independent runways

435 000 air operations annually

WORK SCHEDULE

PORT POLSKA

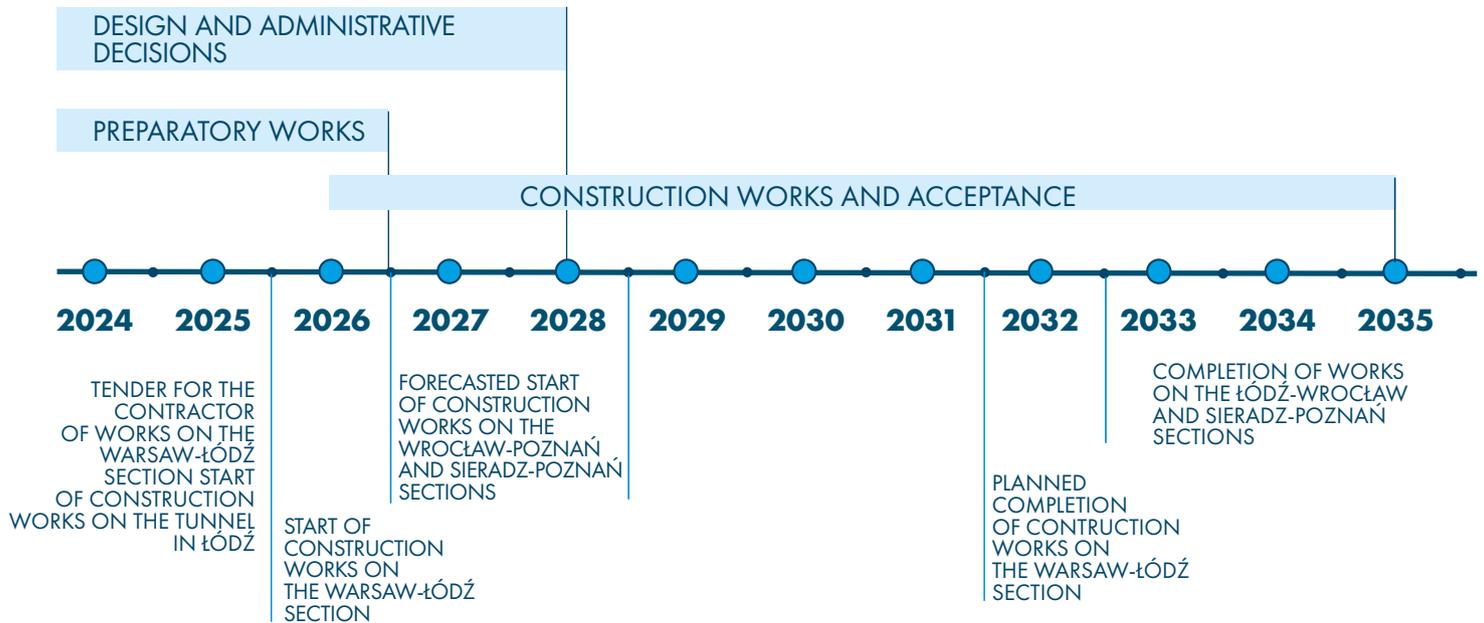

THE „Y” LINE IS A KEY HIGH – SPEED RAIL INVESTMENT (480 KM IN LENGTH)

- will connect 4 out of the 5 largest cities in Poland
- will integrate Eastern, Central and Western Europe
- will link PORT POLSKA with the rail network
- will fill the largest gap in Poland's railway connection network

Daily number of passengers: 30 thousand (50% more than largest current railway line in Poland)

CITY OF ŁÓDŹ INVESTMENT AREAS

Currently in Łódź the greatest emphasis is put on launching new investment areas located at the main road junctions – the A1 motorway and the S-14 expressway. These areas are intended for production, logistics and e-commerce.

CHOCIANOWICE

The largest investment area is in Chocianowice, located in the south-western part of the city, by the national road No. 14 with a direct access to the S-14 expressway, 5 minutes from the Władysław Reymont International Airport in Łódź and 15 minutes from the city center. The adoption of the Local Development Plan allows for the development of approx. 185 ha of new investment areas. In the vicinity of this location, towards the south, the areas of the Łódź Special Economic Zone are located, where Miele's largest household appliances factory outside Germany has already been established, among others.

NOWY JÓZEFÓW

Located in the south-western part of Łódź, directly at the Łódź-Retkinia junction on the S-14 express road. 7 minutes from the Władysław Reymont International Airport in Łódź, where air cargo operates (the third place in terms of the number of goods handled in Poland) and 15 minutes from the city center. The adoption of the plan in this area, in addition to improving investment opportunities for already operating enterprises (mainly within the Łódź Special Economic Zone), allowed for the opening of another 80 ha of new land.

OLECHÓW – JĘDRZEJÓW PRZEMYSŁOWY (INDUSTRIAL)

Important point on the investment map of Łódź is located in the south-eastern part of the city, east of the already functioning Central European Logistics Hub and the largest household appliance factory in Europe belonging to the B/ S/H group. These areas are located just a 9-minute drive from the Łódź-Wschód junction on the A1 motorway and 20 minutes from the city center. An undoubted advantage of these areas is the vicinity of a railway siding and a railway cargo terminal.

OLECHÓW – JÓZEFIAKA AVENUE/ NERY STREET

City is in the process of preparing the Local Development Plan for the area of approx. 67 ha, comprising land located along Cezary Józefiak Avenue, in the direct vicinity of the Łódź-Wschód junction on the A1 motorway. Only 20 minutes drive from the city centre.

CITY OF ŁÓDŹ

WOLNOŚCI SQUARE

CITY OF ŁÓDŹ THE NEW CENTRE OF ŁÓDŹ

THE NEW CENTRE OF ŁÓDŹ IS AN AREA COVERING 100 HECTARES IN THE HEART OF THE CITY:

Within the area of the NCL there are, among others: revitalized building of the first EC1 power plant in Łódź. The unique character of the place refers to the industrial past of the city. Currently, EC1 performs cultural, artistic and educational functions. Inside, there are the largest Science and Technology Center in Poland and the most modern planetarium. The EC1 complex is also the seat of institutions associating artists and filmmakers - the Łódź Film Commission and the Center for Comics and Interactive Narration.

An important point in the area of the New Centre of Łódź is the new underground Łódź Fabryczna station, which has become part of a multimodal transport hub, combining rail, long-distance bus, car and public transport.

The Kobro Market Square, a unique place for meetings and cultural events, will be a part of the New Centre of Łódź. It will be surrounded by typical post – industrial architecture of our city.

An important point on the map of the New Centre of Łódź will also be the modern town hall building, where all municipal units will be located.
